

Rainboo[®]

Polymer Lumbar Cage

PEEK-OPTIMA[®]

Invibio[®]
biomaterial solutions

Advantages

- ◆ Easy of use and simplified instrumentation.
- ◆ Provide large fusion surface for bone inducing ingredients to containment.
- ◆ Full range of size to fit surgeon's need.

Indications

- ◆ Using autogenous bone graft in patients with degenerative disc disease(DDD) at 1 or 2 levels from L1 to S1, ex. primary laminectomy for decompression.
- ◆ Grade 1 spondylolisthesis or retrolisthesis at the involved levels.
- ◆ Revision surgery for failed column operation or post-operation instability.
- ◆ Stenosis or Pseudarthrosis at the lumbar.

Specifications

Degree	5°
Length(mm)	26 、 32
Height (mm)	8 — 14
